MOU Signing Between BSE Institute and Universal AI University

Mumbai, April 15, 2025 – A landmark Memorandum of Understanding (MOU) was signed today between **BSE Institute limited**, (a wholly owned subsidiary of BSE Ltd), a pioneer and established leader in Financial Education, and **Universal AI University**, India's first AI-University based in Karjat, Mumbai to jointly offer AI-infused courses tailored for the Banking, Financial Services & Insurance industry. This collaboration aims to bridge the gap between cutting-edge technology and the evolving needs of the financial sector.

The MOU was signed by **Mr. V. Narayanan Iyer**, Managing Director of BSE Institute Ltd., and **Prof. Sriram Ramshanker**, Pro Vice Chancellor of Universal AI University, during a formal ceremony held at Universal AI University's campus in Mumbai on 15th April 2025.

Key Highlights of the Partnership

- **Objective:** The initiative focuses on equipping professionals in the Banking and Financial Services industry with advanced AI skills to enhance operational efficiency, predictive analytics, risk management, and customer experience.
- **Course Offerings:** The collaboration will introduce specialized programs combining financial expertise with artificial intelligence applications. These courses will emphasize experiential learning, practical projects, and industry immersion.
- **Industry Impact:** By integrating AI into financial education, the partnership seeks to address challenges such as compliance, security, and automation while fostering innovation in the sector.

Statements from Leaders

- **Mr. V. Narayanan Iyer**, MD of BSE Institute Ltd., stated: *"This partnership is a significant step toward empowering professionals in the financial services sector with future-ready skills. AI is not just a technology; it is a transformative tool for redefining banking operations."*
- **Prof. Sriram Ramshanker**, Pro Vice Chancellor of Universal AI University, remarked: *"Universal AI University is committed to advancing education through interdisciplinary approaches. This collaboration will enable us to create impactful solutions for the financial industry while nurturing talent for tomorrow."*

This MOU represents a groundbreaking effort to integrate artificial intelligence into financial education, ensuring that professionals remain ahead in an increasingly digitalized world. The institutions will jointly develop curriculum and the first batch of programs is expected to launch shortly.
