ABOUT US

The MBA induction program is pivotal for students, fostering connections and outlining academic and professional expectation.

An MBA induction program is a structured event designed to welcome and orient new MBA students, familiarizing them with the academic environment, faculty, staff, resources, and expectations of the program, ensuring a smooth transition.

Following this, the outbound activity offers hands-on experiences, emphasizing team-building and leadership skills in a natural setting, enriching the learning process.

VISION

"To foster impactful knowledge creation and cultivate innovative, ethical, & responsible global leaders who drive transformative change in organizations & society."

Opportunity to interact with almost
20+ CXO Leaders in One Week

SOLUTIONS ON INSTITUTIONAL PROBLEM STATEMENTS

Learners worked in teams to analyse real-world challenges faced by the institution and presented innovative solutions.

PRODUCT LAUNCH ACTIVITY

Participants randomly picked a product type and an adjective from two bowls of chits and were required to create a business pitch and marketing strategy.

BURMA BRIDGE

A team-based rope bridge crossing emphasizing communication, trust, and coordination.

RAPPELLING

Descending from a steep climbing wall using ropes, teaching risk management and confidence building

SPIDER WEB

A strategic activity where learners must pass through a rope web without touching it.

KEY ACTIVITIES

OBSTACLE COURSE

A series of physical challenges testing adaptability, time management, and perseverance.

MAZE GAME

A game requiring learners to navigate through trial and error, emphasizing problem-solving and strategy

BEST OUT OF WASTE – SUSTAINABLE HOUSE

Learners were tasked with building a model of a sustainable house using waste materials, focusing on eco-friendly designs.

CORPORATE THEATRE

A fast-paced acting challenge requiring quick thinking and awareness.

TREKKING

Physical endurance activities designed to test resilience and build team spirit.

PROGRAM OVERVIEW

EXPERIENTIAL LEARNING

- Case Study
- Team Bonding
- Discipline
- Time Management
- Project Assignments
- Domain knowledge
- Grooming
- Out Bound Learning

READY – STEADY – PERFORM

WELCOME TO THE REAL WORLD

Students, welcome to the University!

We are excited to have you join our vibrant community of learners, thinkers, and innovators. This is the beginning of an incredible journey where you'll not only gain knowledge but also develop skills that will shape your future.

As you embark on this new chapter, remember that this is a place where you can explore, challenge yourself, and grow both academically and personally. Whether you're here to delve deep into your chosen field of study, participate in cutting-edge research, or engage in extracurricular activities, there are endless opportunities awaiting you.

We are Tribe 9, writing this to share my feedback regarding the recent outbound trip that we attended. We participated in various challenging activities such as river crossing, Burma bridge, rappelling, spider web, and mental wellbeing activities. These activities developed our interpersonal skills, including our attitude towards life, facing our fears, and cultivating a never-quit attitude. By actively participating in these activities, we as a team honed many of our skills, namely team bonding, trust building, and team collaboration. The experience was truly memorable, challenging, relaxing, enjoyable and encouraged us to push our boundaries. The activities were a perfect blend of learning and enjoyment. The outbound trip was an enriching experience that significantly enhanced our team spirit and individual capabilities. Thank you.

Our team, along with five other teams had participated in an engaging outbound activity that had challenges like the Burma Bridge, Rappelling, Spider's Web, Mind Mapping and River Crossing. These activities tested our teamwork, communication and problem-solving skills in different ways. From crossing a high rope bridge to navigating through a web-like structure and brainstorming solutions through mind mapping, each challenge provided unique learning opportunities. It was a memorable and transformative experience that helped us to conquer our fears and taught us to tackle challenges in any setting. It was something we had never done before, and it brought us closer to nature, allowed us to do some incredible activities that we really enjoyed and strengthened our bonds. The staff members and teachers encouraged us to participate in every kind of activities and looked out for our safety. It also helped us to push our boundaries. For us, it was a wonderful experience.
