#### WELCOME TO UNIVERSAL AI UNIVERSITY,

We are committed to crafting leaders with character and equipping them with the technologies of the future. Our diverse range of AI-embedded degree programs in the field of Engineering, Management, Liberal Arts, Design and Sound will empower students to become leaders in a global context in their field while promoting sustainability and entrepreneurship.

Nestled in the breath-taking location of Karjat, near Mumbai, surrounded by mountains, our university is not just a place of learning but one with a Soul. We focus on the 3 P's, which are Purpose, Passion and Professionalism to ensure our students are well-rounded individuals and are prepared to make a real impact in the world through the triple bottom line (People, Planet & Prosperity) framework creating a positive social, environment and economic impact.

With the world moving towards more automation and digital transformation, AI education and research is highly important for a country to stay competitive in the global economy, thus, Universal Ai University will be a key driver of the country's growth and development in the 21st century by teaching Universal skillsets. Additionally, the university would serve as a research hub for the development of new AI technologies, which would bring economic and technological benefits to India.

At our university, we're dedicated to providing students with cutting-edge knowledge and skills in Artificial Intelligence, Machine Learning, and Data Science. Our state-of-the-art facilities, renowned faculty who are leading experts in the field, innovative curriculum and andragogy ensure that our students are equipped with the tools they need to excel in the fast-paced tech industry.

Our focus on hands-on experiential and immersive learning, industry partnerships backed by 60 Global CEOs, and real-world CMAPS (Collaborative Multidisciplinary Approach towards Problem Solving) projects cannot be found anywhere else. Graduates of our programs will be well-prepared for a variety of exciting and lucrative career paths. Having Univitt Technologies Pvt. Ltd., the in-house technology company at UAI, also provides students and faculty with hands-on opportunities to learn, innovate, and consult on real-world AI projects with leading global enterprises like Spotify, Forbes, Turner, KPMG, and many more.

Be at the forefront of shaping the future with AI technology to make yourself future proof.

#### WELCOME TO UNIVERSAL Ai UNIVERSITY,

I relocated from Dallas Texas USA because I wanted to be part of an exciting new university which is India's 1st AI university. We are located in the green rolling hills of Karjat, a short one and a half hour drive from Mumbai, which is ideal for academic studies – close enough to the big city but far enough to focus on studies.

Built on the foundation of the flagship School of Management, the vision of Universal Ai University as a newly established university is to groom global citizens who will positively impact the world using AI. We will differentiate ourselves from other universities in three areas:

- ✓ **The curriculum** – 100% AI. All graduates will either be AI developers or AI power users. For example, we offer one of the world's first BBA in AI, which means that we are teaching our students to solve business problems using AI. We also focus on experiential learning, which means we are a hands-on university.
- ✓ **The student experience** – We will incorporate USA/Texas college traditions with existing traditions to enhance the student experience, giving students a more global perspective. For example, I plan to introduce American football, the #1 sport in Texas and in the US, to students. I also want to build an enduring school spirit so that alumni of UAi can stand proud of their alma mater, and when they meet other alumni in the marketplace throughout the world.
- ✓ **Campus-wide innovation and entrepreneurship** – I will bring the best practices from the US and Silicon Valley to create campus-wide entrepreneurship programs for students across all schools. Whether your career goal is to start a company that can IPO and create maximum economic impact, such as jobs, or work as a corporate employee, we will teach you how to be an entrepreneur, or an intrapreneur inside of an existing corporate to help your employer create new businesses.

As the university grows, we will launch additional future schools where AI can have an outsized impact.

If you are considering UG/PG-MBA studies, I would ask that you consider the curriculum, the student experience, and the campus location in your decision. Should you honor us with your attendance at UAi, we promise you an experience beyond your imagination, 2 and an education foundation to help you prosper as an entrepreneur, or as a corporate employee and leader, and as a global citizen.

# Vision & Mission

**VISION**

To create impactful knowledge and develop innovative, ethical, responsible, and global leaders who will transform organisations and society at large.

**MISSION**

To drive excellence in education, impactful research, and strong community engagement, resulting in a positive societal impact on our ecosystem that will help transform organizations and society at large.

## An Innovative Learning Model - 3 E's

UAI is committed to deliver a life-changing educational experience to Indian and International students. This makes our students corporate ready from the early stage of their career.

### ETHICS | EXPERIENTIAL LEARNING | ENVIRONMENT

UAI follows the 3E's Model to blend Ethics, Experience, and Environment for real-world impact, using Technology.

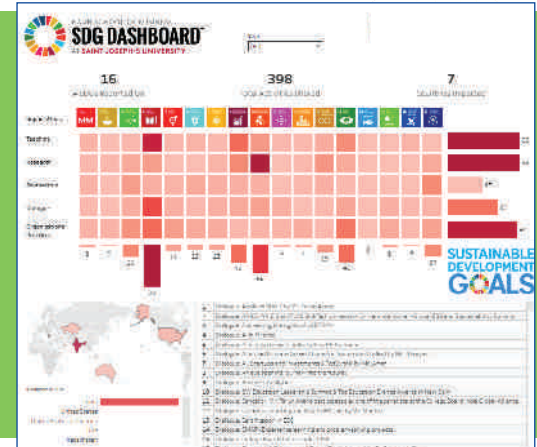

# Sustainability Impact & Economics, Social, Governance

All major corporations are expected to account for their environmental and social footprint. This is carried out through a diverse set of standards, frameworks, and metrics related to what is referred to as an ESG (environment, social, governance) report. Such reporting enables the corporations to better manage their contributions to the attainment of the United Nations SDGs (Sustainable Development Goals).

Universal Ai University has emerged as a disruptor in the SDG landscape, by being the first business school in India to launch its own ESG report, disclosing its environmental and social footprint and re-affirming it's position as India's 1st Green Business School.

## PUTTING AI IN MUMBAI COVER STORY

Artificial intelligence is advancing faster than expected, reshaping not just technology and economy, but also society, politics and global power dynamics. Recognising AI's strategic importance, India is implementing an ambitious plan to create its own AI ecosystem of homegrown models and computing infrastructures. With its financial resources and vibrant tech-academia scene, Mumbai is emerging as the AI powerhouse driving India's technological transformation

**WE NEED GUARDRAILS - RULES THAT ENSURE THAT AI IS USED RESPONSIBLY BY GOVERNMENTS, BUSINESS & SOCIETY.**

**LEARNING CURVE**  
Students learn about an AI tool called 'Gangai' at Universal AI University of Kargil, near Shimla. The university offers 'AI-embedded' courses across disciplines

But AI's power comes with risks. "In the wrong hands, the consequences could be devastating," Anand said.

At C-MnDS, Agarwal highlighted the emerging danger of AI-generated videos that are hypertextually addictive. "These videos are trained on content that hooks children," he said. "AI optimises visuals-world shapes, colours, sequences-hacking into a child's neurological system. They simply cannot look away."

This underscores the need for regulation. "We need guardrails-rules that ensure that AI is used responsibly by governments, businesses & society," said Anand.

# Built on the Power of AI: The UAI Advantage

At UAI, every program is built on a foundation of Artificial Intelligence. We prepare future-ready leaders who are AI Power Users first, and industry innovators next — capable of using AI to solve problems faster, smarter, and more creatively, while making a positive impact on society.

## AI for All

Every fresher — UG or PG — begins their journey with AI courses in their first term, learning to use AI tools confidently and ethically.

## Coding for the Future

All students take a foundational Python programming course, enabling them to go beyond prompting and truly understand how AI works.

## AI Foundations Certificate

Students prove their skills through an AI Foundations Aptitude Test and earn their first certification.

## AI in Action

Students then learn to apply AI to their specialization — whether in Management, Design, Psychology, Sound, Engineering, or beyond — using AI to create smarter, lower-cost, and more creative solutions.

## Advanced AI Certification

Before graduation, every student takes a Specialized AI Aptitude Test, earning an advanced certificate showcasing their applied AI expertise.

# Universal Ai University Mascot - HawkAi

#SoarHigh #SoarFar #SoarFast #SoarStrong!

Unveiling by Padma Bhushan Gulzar Sahab & Tarun Anand, Chancellor

University Mascot Idea came from Dr. Simon Mak, Vice-Chancellor (MIT, USA)

Inspired by Guru Gobind Singh Ji, the Tenth Sikh Guru, a warrior, poet and philosopher who would carry a Hawk perched on his hands which is considered a symbol of heightened awareness, the ebb and flow of the Guru, the new mascot 'Hawk Ai' would symbolised the attributes of Universal AI University's mission to embrace the ever-soaring heights of new-age global education with standards, ethics, environment at its core in AI - led education. The mascot was unveiled by Padma Bhushan Shri Gulzar Sahab.

The slogan set, as a Cheer with the new mascot in motion was **'Soar High, Soar Far, Soar Fast, Soar Strong'**.

65 The values of our Mascot named HawkAi resonates with the values of Universal Ai, which are as follows: Freedom | Courage | Carefree and Open | Self-Reliance | Nobility

## It's time to deepen our links with India - and our universities are showing the way

Prime Minister Theresa May and Indian Prime Minister Narendra Modi walk through the gardens of Hyderabad House in New Delhi

The relationship between the UK and India can be summed up with two words: opportunity and openness. Initiatives such as the UK-India Business Council's CEO Forum and 2019's UK-India Year of Education, Research and Innovation are all helping to build new and stronger bonds. And to recognise this work, the CBI has recently published a report with Middlesex University entitled Bridges to the future: the role of universities in the UK-India relationship.

**Interchange** - For example, Cardiff Metropolitan University's partnership with Planet EDU-QAI and Universal Ai University is an excellent example of the fruits that are borne through the interchange between business and universities in both countries.

Cardiff Met also has a partnership in India with Universal Ai University (UAI). The residential campus in in Karjat, an hour's drive from Mumbai. Currently UAI has two courses with Cardiff Met, MBA and BA business management (BAMB).

The partnership is expanding steadily and there are long-term plans to expand the courses available. UAI has excellent links with industry, and has a governing body comprising over 50 eminent academics and business leaders from India and beyond. Students therefore benefit from a wide array of guest tutors to enhance their academic learning.

Artificial Intelligence (AI) is no longer limited to engineering laboratories or coding-intensive sectors as it is transforming creative careers as well. Based on a McKinsey report issued in 2023, almost 75% of businesses in various industries will implement at least one AI tool by 2030, with design-intensive sectors such as advertising, fashion, and digital media being the leaders. For young artists, this presents an interesting question: Can learning AI tools as part of design classes actually give them a competitive advantage in their jobs? The answer is definitely yes, and here's why.

# Mumbai – The City of Dreams - Best of Both Worlds

Universal Ai University's Karjat Campus is the 'best of both worlds' dynamic – secluded campus with quick access to the fabled City of Dreams, Mumbai – makes for an unforgettable experience for Universal Ai University students.

“Mumbai is an epitome of cinema, arts, music, business and history”. “It’s hard to not fall in love with such a magnificent city because of its vibrancy, style, street food, and nightlife. Its close proximity to Mumbai (1.5 hours drive) allows us to attract top CEOs and CXOs from the corporate world who find Karjat a green haven. Karjat Known as the 'Hamptons of Mumbai', Karjat's natural beauty – mountains, rivers, lakes, and waterfalls – creates a pollution-free environment that attracts top CEOs and CXOs as guest speakers.

Living in the lap of nature and the heart of greenery gives a completely pollution-free environment which adds one year to the student's life and well-being.

Our residential campus enables 24/7 transformative learning, with 50% of education happening outside classrooms through experiential activities. Students save commute time for better pursuits: rest, sports, hobbies, reading, and entertainment – all while living in the lap of nature. The vibrant proximity to Mumbai's cinema, arts, business, and culture, combined with Karjat's serene greenery, makes for an unforgettable student experience.
